EXPRESS WASH CONSISTS OF

*Everything we can reach from the ground including broom over cab, glass, front of truck, mud flaps, and back of trailer. *Sponge over wheels, tanks, rear light bar and bull bar *Automatic brushes on sides

*Full pressure Automatic wash if required *Automatic fresh water rinse

We will not be getting every bug off, therefore you will be leaving neat, tidy and respectable.

Best part of all is you don't have to join the line-up with the full-wash trucks as we have a dedicated Express wash bay to get you in & out in no time.

This is how we keep our own fleet clean & tidy at a very reasonable cost.
